

January 28th 2021 - 6.00 pm CET (UTC+1)

**Seminar of young scientists in Myology
SFM 2020 prize award**

Program

5.45 pm - SFM business meeting (Emmanuelle Campana-Salort)

5.55 pm - Welcoming the attendees of the seminar

6.00 pm- Seminar of young scientists in Myology

Introduction of the French Society of Myology (Rémi Mounier and Emmanuelle Campana-Salort)

6.05 pm - Laure de Pontual, Centre de Recherche en Myologie, Paris. 2020 Master prize candidate.
Identification of new factors inducing CTG repeat contractions in myotonic dystrophy type I.

6.15 pm - Lola Lessard, Institut NeuroMyoGene, Lyon. 2020 Master prize candidate.
The effects of TGF β signaling activation on the neuromuscular system.

6.25 pm - Laurie Nemoz-Billet, Institut de Génomique Fonctionnelle, Lyon. 2020 Master prize candidate.
Understanding the role of collagen XV-B in the development and regeneration of motor nerves using the zebrafish model.

6.35 pm - Amélie Vergnol, Centre de Recherche en Myologie, Paris. 2020 Master prize candidate.
The splicing factors involved in the control of CavB1E expression in adult skeletal muscle.

6.45 pm – 2020 Master prize award

6.50 pm - Romane Idoux, Institut NeuroMyoGene, Lyon. Master Prize 2018 winner. **Investigation of excitability and Ca²⁺ handling defects in skeletal muscle fibers from a zebrafish model of Bethlem myopathy.**

7.05 pm - Camille Guillermin, Institut de Génomique Fonctionnelle, Lyon. Master Prize 2019 winner.
How do muscles and motoneurons meet for life?

7.20 pm - Impulsion prize award 2020
Gaetan Juban, Institut NeuroMyoGene, Lyon

7.25 pm - Alicia Mayeuf-Louchart, Institut Pasteur, Lille. Impulsion 2019 prize winner. **Role of circadian clock in muscle stem cell functions.**

7.40 pm - End of the seminar
